

PROTOCOL 13

Action for isolation period of 10 days

All attachments are on the child's class page. They will be identified with the word **quarantine** in front of the content of the attachment e.g. **quarantine maths**.

It is crucial that children continue their learning during this period. Teacher to ascertain if any child will have difficulty in accessing remote learning due to lack of device / internet access. If this is the case, Teacher to make Business Manager aware who will arrange for a device/wireless router to be loaned if one is available.

Staff will upload work / timetable for any child isolating – TA responsible for marking work and giving feedback

If bubble needs to isolate then lockdown procedures resume with TEAMS meeting at 9am, register taken, teaching takes place and children set work to complete and then upload for marking and feedback.

In the afternoon, the children will upload the maths and English completed to the school spider/school email for the teacher to comment upon the next morning as general feedback identifying common misconceptions

On Monday and Friday children will be invited to attend the whole school virtual assembly at 9am.
