

## **Protocol 14**

### **Safe Wearing and Removal of Face Covering**

Safe wearing of face coverings requires the:

- Cleaning of hands before and after touching – including to remove or put them on
- Safe storage of them in individual sealable plastic bags between use
- You should not touch the front of the face covering during use or when removing it
- You should dispose of temporary face coverings in 'black bag' waste bins (not recycling)

Where a face covering becomes damp, it should not be worn, and the covering should be replaced carefully. You may consider bringing a spare face covering to wear if your face covering becomes damp during the day
